

Partnerships for Strategic Impact

Leveraging collective expertise for impact.

Maryfrances Porter, Ph.D.

President & Founder

At any time PSI has several projects underway with local and state partners. Projects often include: the development and implementation of needs assessments (i.e., data collection with residents and/or service providers), interview transcription, data collection/entry regarding the impact of youth programs, conducting qualitative interviews or focus groups/transcription/data entry, data collection regarding the efficacy of program implementation, white paper/brief development (synthesis of research on specific topics written for lay readers), general data entry, and literature reviews.

- IRB CITI training certification is required.
- 2nd, 3rd and 4th years only.
- Previous research experience is highly desirable.
- Cumulative GPA must be at least 3.0.

Research assistants work from home, collect data directly from people in the community, and/or may complete some or all hours within a local agency.

To receive 3 hours of academic credit, research assistants are expected to work about 9 hours a week or 120 hours per semester. Students not receiving academic credit are paid \$12 an hour.

***Students who are fluent in Spanish are encouraged to apply,
as well as students from diverse backgrounds.***
